CAPITAL YEAR REPORT 2022

*Thank You*

Spare Time Boutique Bowling & Events

Dear all,

The past years have been challenging for all of us, but thankfully 2022 has seen a resurgence across all areas of this great bowling industry. At Bowltech we have had another year of growth, and it is entirely down to you, our customers and partners.

We cannot thank you enough for your trust and friendship in growing our businesses together. In this booklet you will find an overview of the installations the Bowltech Group has made in 2022, and where together with you we are contributing to keep our industry vibrant and ready for the future.

On behalf of QubicaAMF and all the Bowltech teams across Europe (salesmen, installation crews, administration staff and management) please accept this small token of our appreciation.

We look forward to continuing our friendship into 2023 and beyond, and to being of service to you for many years to come.

Warm regards,

Hans Krol

Also the complete scoring system is upgraded to BES X to ensure extreme fun and exciting competitive play. And wait until you see the massive LED videowall that stretches out above all 12 lanes...

# HAL22

BORN TO PLAY\_

HAL22 is a new location in Utrecht where you can enjoy sports and relaxation. Besides Padel, Squash, Fitness, Snooker and Pool there is the possibility to relax with a good game of bowling.

For HAL22 we constructed 10 beautiful lanes with the best equipment. The EDGE String was chosen because of its low operational costs and reliability.

All lanes have the modern Harmony Ball Returns, Hyperbowling and BES X Ultimate which guarantees a fantastic playing experience. The LED videowall of Bowling Media across the full width completes the complete picture.

We have also installed the new EDGE String pinspotter on these lanes. A perfect combination!

# BOWLING LEUVEN

In a city that is nationally known for its nightlife and student life, bowling is of course a must.

In the beautiful Belgian city Leuven, the bowling establishment located in the center has been a household name for over 40 years!

Bowling Leuven wanted to lower their operating costs but retain the free fall playing experience of his 82-70 machines and therefore chose the new Edge String Pinspotters. These machines offer a fantastic gaming experience at a significantly lower cost. In combination with the BES X Core entertainment system, the center is completely ready for the future!

In 2020 Phönixbowling Mainz replaced 10 of their old pinspotters for EDGE String pinspotters.

For part two of the modernisation we have replaced the remaining 10 pinspotters for EDGE String and also the old ball

returns for the fantastic Harmony Ball Returns which has a timeless design and better safety features. Combined with the Bowltech Soccerballs this center is ready for the future!

By replacing the old pinspotters, they now have little to worry about, as the operating system has been made so user-friendly, that every staff member can carry out maintenance on every machine. Edge String also reduces operational costs and preserves the traditional bowling experience.

Acro Bowling has upgraded their lanes by replacing the old ball returns with the streamlined Harmony Ball Returns from Qubica AMF.

The modern, sleek style with high-quality materials and finishes provide a refined look. In addition, the Harmony Ball Return consumes less electricity than other ball returns on the market, resulting in lower costs.

But at least as important is safety, the lift automatically switches off when there are too many balls on the ball rack or when a (child's) hand is put into the ball hole. In short, this unit is an improvement on all fronts!

# BOWL'N'FUN

**By 2022, we will have completed the last modernisation of a total of 17 centres for Bowl'n'Fun in Denmark.**

With the modernisation of the centres, Bowl'n'Fun switched to one type of pinspotter and one type of scoring for all locations.

To keep operational costs low and still be able to offer the authentic bowling experience to their guests, the EDGE String pinspotter was chosen.

Naturally, the scoring has also been updated to last for years to come. In addition to the EDGE String pinspotters, all lanes are equipped with the BES X Scoring & Entertainment system.

A total of 262 lanes, spread over 17 centres are now ready for the future again!

In 2019 we equipped all 4 lanes of City Bowling Köln with the BES X, the world's only Bowler Entertainment System in combination with Center Punch Deck lights to create a fantastic ambiance en bowling experience.

To give their guests an even better and interactive experience during bowling, they chose to have an LED video wall installed as masking. With the video wall they can show everyone some spectacular visuals, but also provide them with offers and information which can boost sales.

This LED video wall was not only the first to be installed by Bowling Media in Germany, but also the smallest to date with a special function incorporated. The video wall contains a door between lane 3 and lane 4 with which one can reach the service area, but which you do not see when it is closed!
