LIGHT 4 BOWLING

Bowltech and MoreSenz have developed Light 4 Bowling, a unique lighting concept that enhances the atmosphere of your bowling centre. MoreSenz goes beyond just lane lighting, offering complete solutions for your entire venue, including bars and gaming rooms.

With over 20 years of experience, MoreSenz seamlessly integrates the bowling equipment with lighting, and sound into an immersive yet easy-to-control system. Based in Nijkerk, The Netherlands, and active in North-West Europe, they provide tailor-made, brand-independent solutions to elevate your space.

LIGHTING, EVERYTHING IS
POSSIBLE.”

FEC Sevenum - Sevenum

Bowltech and MoreSenz offers custom-made light shows with a unique and easy-to-install railing system. This flexible and expandable system saves costs and time as no cable trays are needed. It features plug-and-play technology, making installation effortless. The LED lighting is energy-efficient and combines RGBW colours for fun bowling with warm white light for league play. The system ensures optimal lighting without blinding players.

CHOOSE YOUR PERFECT AMBIANCE WITH LIGHT4BOWLING

- ✓ Quality lighting for bowling centres
- ✓ Project Support
- ✓ Technical engineering

SET UP THE RIGHT AMBIANCE

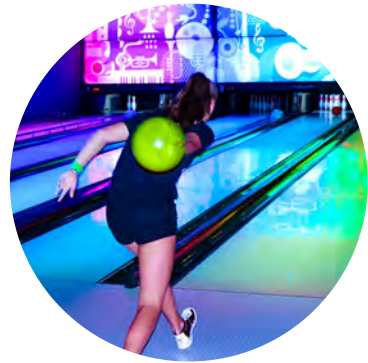

WITH OUR
EASY CONTROL
PANEL

EASY ON THE EYES

HARD TO BEAT

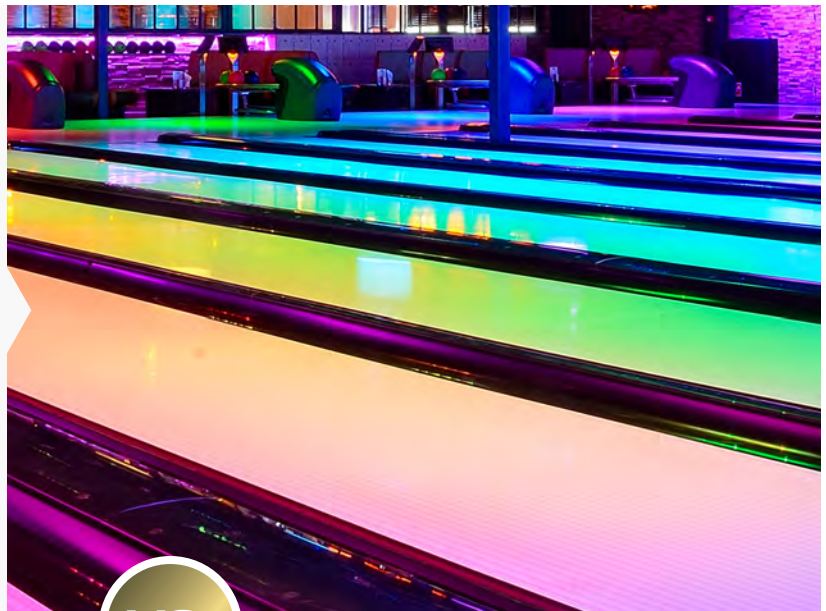

While lights from other brands often create harsh beams and bright spots on the lanes — sometimes even flickering — MoreSenz does things differently. Our lighting uses smooth colour transitions that blend naturally, without any sudden flashes or hard edges. The result? A relaxed, dynamic vibe that looks great and feels easy on the eyes. Helping players stay relaxed, focused, and play longer.

COMPARISON BETWEEN BRANDS

LIGHTS FROM LIGHT4BOWLING

- ✓ Smooth colour transition
- ✓ No hard edges
- ✓ Easy for the eyes
- ✓ Creates a calming ambiance

VS.

LIGHTS FROM OTHER BRANDS

- ✗ Harsh colour transitions
- ✗ Hard edges that causes spots on the lanes
- ✗ Hard to focus on pins
- ✗ Generates a harsh, chaotic atmosphere

Looking to make your bowling alley stand out from the crowd? Our custom-designed Gobo Spotlights are the perfect way to combine functionality with style. These cutting-edge lighting solutions project your branding, lane numbers, or custom visuals directly onto the approach area of each lane, enhancing both the customer experience and the overall look of your venue.

GOBO SPOTLIGHT

- ✓ Sleek and modern design
- ✓ Clean lane numbering or custom branding
- ✓ Integrated above the approach area
- ✓ Ambient glow with warm light

GOBO SPOT LIGHT

Sleek and Modern Design

The Gobo spotlights are designed with aesthetics in mind. Their clean, minimalistic housing blends seamlessly into any contemporary interior, while the precision lighting adds a polished, high-end feel to your lanes. It's not just about illumination—it's about creating an atmosphere your customers will remember.

Integrated Above the Approach Area

Our Gobo fixtures are installed directly onto a standard 3-phase track system above the approach zone. This placement ensures maximum visibility without interfering with gameplay, and allows for easy adjustments or repositioning as needed. The rail system also simplifies maintenance and upgrades.

Clear Lane Numbering or Custom Branding

Function meets creativity. Whether you're looking to clearly identify each lane with bold numbering or add your company logo for that professional touch, Gobo projection makes it easy. You can even switch out the gobos for different events, promotions, or themes—perfect for leagues, parties, or seasonal specials.

Ambient Glow with Warm Light

Pair the Gobo projectors with warm white track spotlights to create a cozy, inviting environment. While the Gobo adds clarity and focus, the additional lighting enhances mood and visibility throughout the entire space. The result is a well-lit, atmospheric setting that's both functional and visually striking.

Gobo spotlight options:

CCT Kelvin	3000K (Warm white)	4000K (Natural white)
Luminous flux	1000lm	1150lm
System power	32 Watt	32 Watt
CRI (Ra)	(Ra) >90	(Ra) >90
Housing Colour	Black RAL 9005	Black RAL 9005
Beam angle (deg)	25°-30° circular	25°-30° circular

EXTEND YOUR AMBIANCE WITH MORESENZ

MoreSenz offers more than just technology – they create unique, sensory experiences that elevate your bowling centre to the next level. Whether it's the lighting in your lounge, the sound experience in your bowling hall, or smart systems that improve operational efficiency, MoreSenz has the expertise to develop customized solutions that perfectly match the atmosphere and needs of your business.

By partnering with MoreSenz, you benefit from their extensive experience in creating customized technology solutions that not only improve the customer experience but also contribute to the growth and efficiency of your business. Let MoreSenz help you transform every space in your bowling centre into a unique and functional experience. Get in touch today and discover how they can transform your business.

MAXIMIZE THE POTENTIAL OF DIFFERENT SPACES

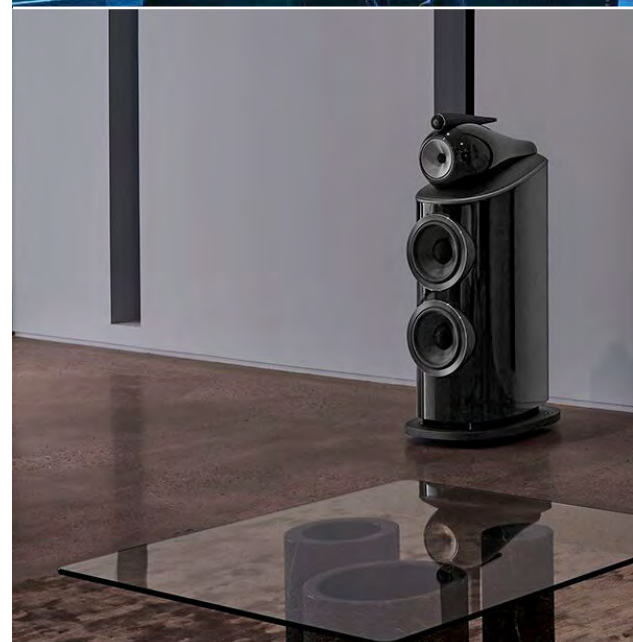

By choosing the expertise of MoreSenz, you maximize the potential of your bowling centre. With their full-service solutions in lighting, audio, and smart technology, you not only benefit from customized systems but also enjoy the advantages of seamless integration that makes your business more efficient and effective.

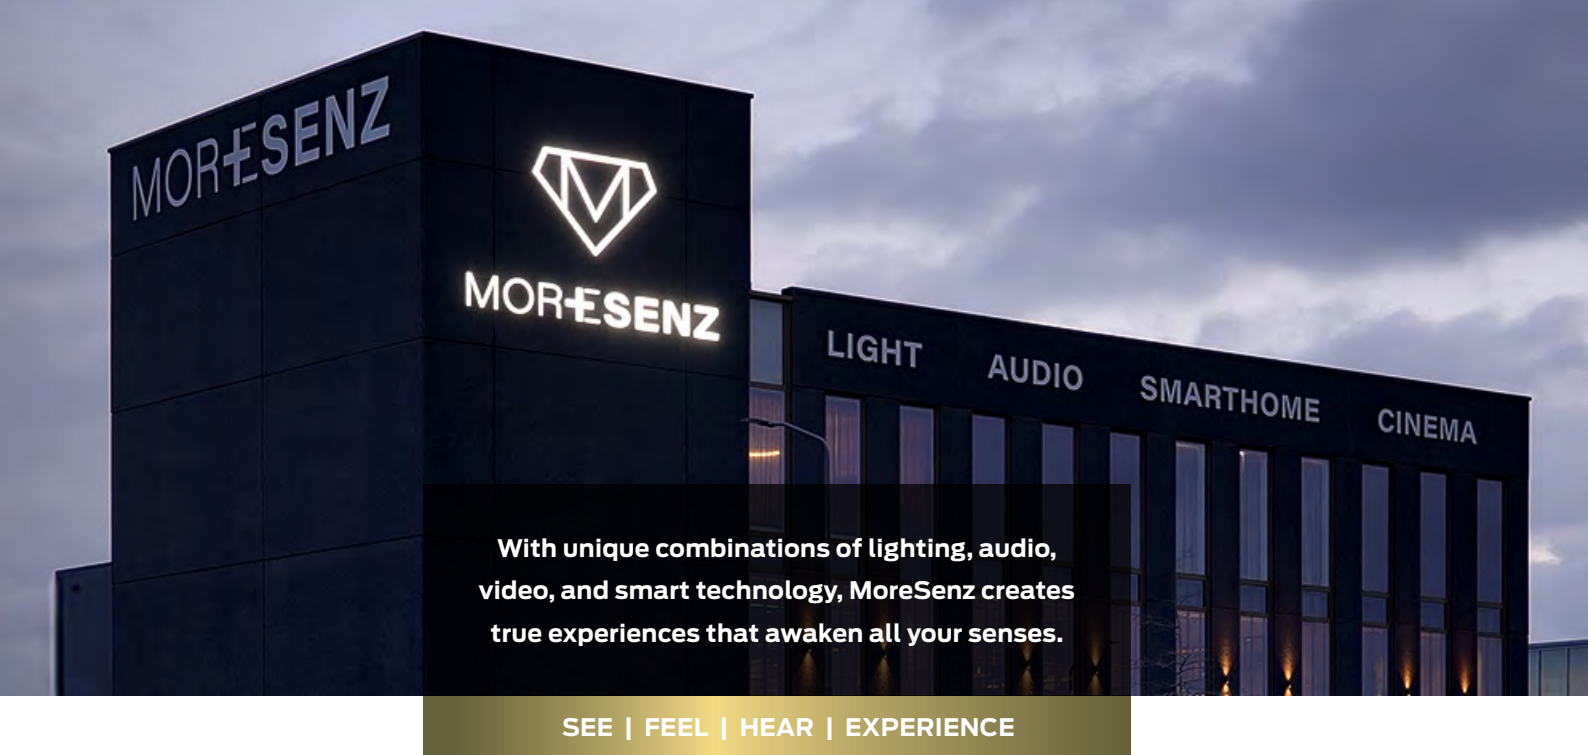

MORELIGHT

1. MoreLight: Lighting is essential for setting the right mood in any space. MoreSenz provides high-quality, dynamic lighting solutions that transform your venue, whether it's a bowling centre, bar, or gaming room. With customizable colour effects, dimming options, and automation, you can create the perfect ambiance for any occasion.

MOREAUDIO

2. MoreAudio: Integrate high-quality audio solutions that offer an exceptional listening experience for your guests, whether it's music, announcements, or live events. You can tailor the sound experience to fit the different areas within your bowling centre.

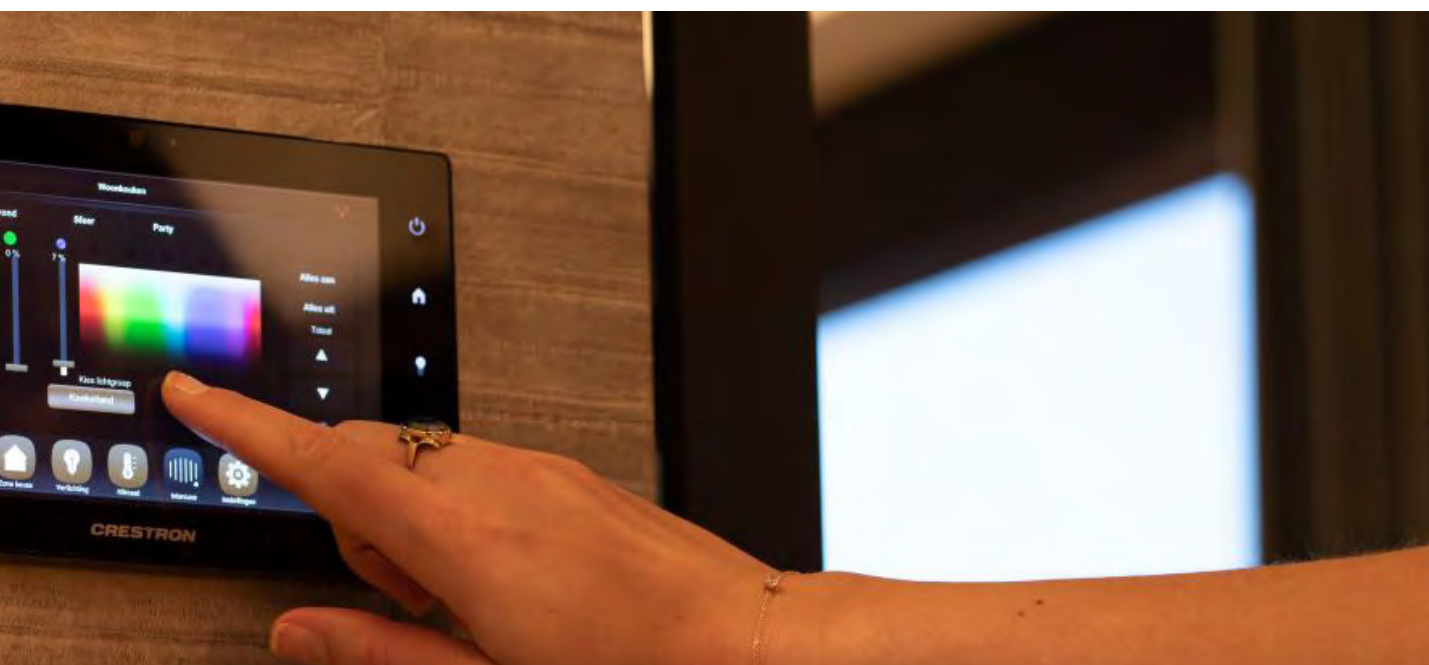

MORE SMARTHOME

3. MoreSmarthome: Bring your bowling centre into the future with smart systems that help manage lighting, heating, security, and more. Home automation can reduce operational costs while simultaneously enhancing the comfort and safety of both staff and guests.

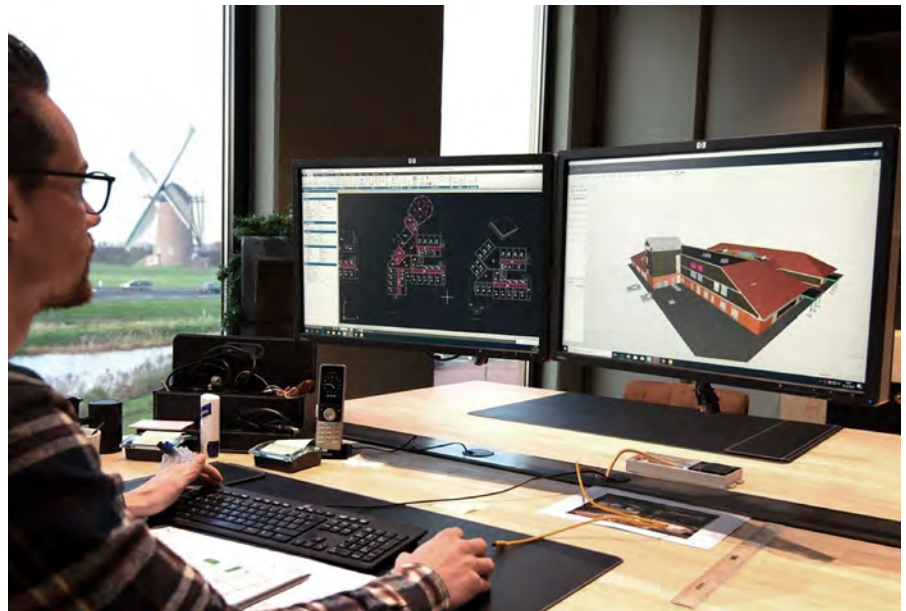

MORE CINEMA

4. MoreCinema: MoreSenz is the ideal partner for creating compact and home cinemas, perfectly suited for any facility and budget. Whether it's an integrated solution in your living room or a fully equipped cinema room with home automation, ambient lighting, and top-quality audio and video, MoreSenz offers customized solutions that are easy to operate. You're welcome to book an appointment and experience our unique 'cinema experience' in our showroom.

FOCUS ON PROVIDING THE ULTIMATE CUSTOMER EXPERIENCE WHILE MORESENZ TAKES CARE OF THE TECHNOLOGY

From consultation and design to installation and maintenance, MoreSenz ensure everything is perfectly aligned and remain involved to achieve the best results. This way, you can focus on providing the ultimate customer experience while MoreSenz takes care of the technology that makes the difference.

Project management

We guide projects from concept to completion. Our expertise lies in translating technical drawings into smart, sustainable solutions for your venue. With attention to detail and functionality, we ensure every project runs efficiently and aligns perfectly with your requirements and technical specifications.
