## EXPAND THE REACH OF BOWLING BEYOND IMAGINATION

HyperBowling is a revolutionary bowling-based attraction that is built to extend your reach beyond the existing bowling population.

It is an amazing blend of software, mechanical design, futuristic user interfaces, electronics, lights and sensors, which together deliver a never before seen on-lane experience!

HyperBowling delivers the perfect blend of bowling and gaming. It is the ideal way to tap into the huge potential audience not fully served by bowling today, like Gen Z and Millennials, and provides a great platform that everyone can enjoy so you can reach beyond your existing bowling base.

### HYPERBOWLING BASICS

The lights on the bumpers create moving targets that players aim to hit (or avoid). There are multiple games, each with its own unique set of challenges and levels that are easy to learn. You must hit the bumper to score! The colorful targets on the bumpers are each worth a different multiplier value (2X, 3X,...) and each pin knocked down is worth 100 points. So, a 2X multiplier and 8 pins down scores 1,600 points! But watch out, the red target always results in a 0 score.

### EVERYONE CAN PLAY AND WIN

With HyperBowling you don't need to be a good bowler to win. It's easy to learn, easy to play and easy to score. There is no need to make difficult shots—strikes in a row, spares and hard splits have no meaning. And, there is no need to learn the complex scoring of the game.

### IT DELIVERS A WOW VISUAL EXPERIENCE

HyperBowling delivers a WOW visual experience that adds new dimensions to classic bowling! It was designed with a video-game approach in mind. There are different challenges and levels to explore within each game.

### FOUR DIFFERENT GAMES PROVIDE A VARIETY OF CHALLENGES

Four different games provide a variety of challenges to fit different styles, skills and moods. All of this works together to drive players to want to play more and see more of the game – and come back more often too!

### HYPERBUMP TECHNOLOGY

At the physical heart of HyperBowling is an all-new bumper system – designed, built and tested specifically with the new games in mind and to allow anyone and everyone to play. Its unique design supports sustained impacts by any bowler. It brings all new lighting technology and a sensor system to keep track of all of the action on the lane.

EDGE Free-Fall is the latest expression of our never-ending commitment to make bowling amazing. More than ever bowling operators and investors need equipment that is easier to maintain, less costly to operate and incredibly dependable. When it comes to free-fall pinspotting equipment, older, secondhand and even some new machines simply aren't up to the task. But QubicaAMF is.

### BEST PERFORMING IN REAL-WORLD OPERATIONS

EDGE Free-Fall is the performance leader where it counts: in real-world bowling centers, real-world conditions, day in and day out. This means an amazing experience for your guests, unmatched by any other free-fall machine.

- **EDGE Pin Handling Technology**  
Bowling's most efficient pin handling system is the heart of this machine's industry-best performance. It spots and re-spots pins with amazing reliability and precision.
- **Best Pin Pick-Up Range**  
EDGE Free-Fall has bowling's largest pin pick-up range. This means more standing pins that slide off-spot get picked up and re-spotted by the machine for fewer interruptions in play.
- **Gripper Ball Return System**  
Not only returns balls quickly and reliably, its ball-wiper removes excess lane oil from the ball at the same time.

### EASIEST TO LEARN AND MAINTAIN

Through a combination of innovation and smart design, EDGE Free-Fall can be serviced by technicians who are new to bowling, or those with years of industry experience. This means more flexibility when it comes to finding staff for your center.

- **Tech Wizard Guidance<sup>1</sup>**  
This industry-first expert smartphone app saves time and money by making operation and servicing easier and more efficient, especially for technicians new to bowling.

<sup>1</sup> Functionality requires Conqueror X, any tier, with Conqueror Maximization Program (CMP).

- **Tech Wizard does this through:**
  - Real-time operational alerts and guidance
  - Scheduled maintenance notifications and instruction
  - A convenient "How-To" video library resource for technicians

- **XLi Technology**  
XLi software-driven technology eliminates mechanical complexity and simplifies machine operation. And the XLi software is always current thanks to the BES X and Conqueror X scoring and management systems.
- **Safety in its DNA<sup>1</sup>**  
Delivers peace of mind. Industry-leading reliability means fewer staff interactions with the machines. Transparent guarding provides visibility without requiring deeper access.

An approachable, uncluttered design provides safe and easy access to machine components for routine servicing.
- **Real-Time Performance Monitoring<sup>2</sup>**  
Machine performance and staff intervention data is digitally captured and instantly viewable. Giving managers and technicians reliable insights into the bowling experience and staff utilization.

### SMARTEST INVESTMENT LONG TERM

A history of longevity and affordable operation have made QubicaAMF pinspotters the most sought-after in the business. EDGE Free-Fall carries our legacy forward through quality construction and unique technology that reduces operating costs. It will perform for decades—and cost you less to run.

- **SmartCycle<sup>®</sup>** - Modern, precision scoring camera technology means the pin table does not cycle for every pin-leave situation. Eliminating unnecessary wear and tear and lowering parts and labor expenses.
- **Run-On-Demand Intelligence** - All motors and mechanical systems run only when balls are thrown. Saving energy expenses and extending the life of components.
- **Durabin<sup>®</sup> Pin Storage System** - This unique system stores bowling pins until time for them to be set on the pin deck. Pins last longer because they don't continuously cycle through the machine.
- **Proven Design, Quality Construction** - EDGE Free-Fall is the evolution of a time-tested design that has been proven to perform for generations. This exceptional machine is built with high quality metal alloys, resilient engineered thermoplastics and efficient industrial gearmotors. ## THE HARMONY BALL RETURN SYSTEM

THE ONLY BALL RETURN SCULPTED TO BE BEAUTIFUL AND ENGINEERED FOR INTELLIGENCE

The Harmony Ball Return solves many of the most critical ball return needs of today's bowling businesses that can't be met by the alternatives.

The benefits are:

- It enhances the ambiance of any center
- Intelligence for a better experience
- Easy to operate
- Most energy efficient ball return available

### ENHANCES THE AMBIANCE OF ANY CENTER

#### Gorgeous Design

The Harmony Ball Return has a clean, forward sweeping modern design with quality materials and finishes. It delivers a high-end look to the bowler area and center overall. Additionally, the design blends well into all environments.

#### Widest Selection of Color Choices

The Harmony Ball Return is available in 6 different colors, giving you flexibility to match your vision.

RED ORANGE GREY GREEN BLUE BLACK

### INTELLIGENCE FOR A BETTER EXPERIENCE

By choosing the Harmony Ball Return for your center you are creating a better environment for customers and your staff.

**Exclusive Hand Intrusion Sensor** Stops all moving parts in the ball return as soon as a foreign object, such as a hand, enters the ball exit area from the outside, and sounds a warning beeper. This use of technology helps reduce the chance of hand injury to a bowler, particularly children; in addition, the warning beep is a signal to the center staff that something is wrong.

**Gentle Ball Exit Speed** Balls exit the lift slower and with less force than all other ball lifts on the market. This reduces the hazard of bowler's fingers getting pinched by a ball exiting the lift and striking the ball on the rack that is being picked up by a bowler.

**Drive System Moving Parts Fully Guarded** The moving parts of the drive system are guarded to protect staff if they need to work on the lift.

**SmartPath Ball Distribution** Patented design ensures balls are distributed equally on either side of the ball rack, preventing pile-ups.

### EASY TO OPERATE

With the Harmony Ball Return anyone on your staff can perform maintenance when needed.

#### Above-Lane Electronics

All electronics are above the lane and easily accessible. This makes it quick and easy for any of your staff to work on the lift.

#### Quick-Remove Hood Cover

The ball return hood cover is designed for quick removal, making it quick and easy for the technician to remove the hood and access the ball return.

### MOST ENERGY EFFICIENT BALL RETURN AVAILABLE

The Harmony ball return uses less electricity than any other ball return.

#### Exclusive Smart Auto-Start Technology

This intelligent technology enables the ball return to run only when needed. This saves power and prolongs the life of the drive system. Electrical consumption is 70% lower on average compared to other ball returns.

### SHOW A UNIQUE SENSE OF STYLE.

The right masking can set off your center.

## BOWLING PINS

HIGH SCORING, INCREDIBLY DURABLE AND EXTREMELY ATTRACTIVE PINS.

When pins crash and fall, registers ring and bowling centers thrive.

Our AMFlite II continues to shatter tournament records. Our AMFlite Pinnacle tops the industry.

Our colored pins and birthday pins get more vibrant and creative year after year. And our trophy pins are treasured by all.

## AMFLITE II PINS

THE STANDARD OF EXCELLENCE AGAINST WHICH ALL OTHER PINS ARE MEASURED.

100% kiln-dried, these are the most durable, highest-scoring pins on the market, shattering one tournament record after another.

Strictly premium-quality, they feature our exclusive compression-molded construction, which results in a larger wooden core that extends pin life and boosts scoring.

They offer a patented lock-in base that stays in place for the life of the pin to reduce sliding.

And they're finished with a custom topcoat for longer life, an improved appearance and better performance in all machines.

**CUSTOM LOGO PINS**

Looking to set your center apart? Have special guests or a special event you want to commemorate? Consider ordering QubicaAMF custom logo pins. We'll imprint either birthday and award pins at no extra charge with a minimum order of just 10 sets. It's a great idea and a great value too!

**COLOR PINS**

Color pins offer one of the easiest, most effective marketing opportunities available to your center. And QubicaAMF provides the most dazzling multi-hued array of pins in the business—perfect for glow-in-dark Xtreme™ bowling environments. Bowlers like the excitement and diversity. And operators like you appreciate the traditional durability you've come to expect.

**REGULATION STRING PINS**

QubicaAMF, the leading producer of string pins, provides string pins for tenpin compatible with all models of string machines. Our string pins are the same high-scoring, industry leading AMFlite II pins used on free-fall pinspotting machines around the world—simply modified with a small hole in the top and side of the head of the pin to allow for attachment to the string.

**DUCKPIN & MINI BOWLING PINS**

Whether you offer Duckpin or Mini Bowling, QubicaAMF has your pin needs covered. While traditional hard duck pins are standard with our Fly'n Ducks, you can choose soft duck pins for a quieter experience.

They are also easier to topple, making them a great option if you want to provide a slightly easier experience for guests.

**PINNACLE PINS**

As the name implies, Pinnacle is our top-of-the-line pin, made with only straight-grain white maple, and inspired by a 30-year legacy of success with our best-selling AMFlite II series. They feature 50% more Surlyn in the ball impact area to reduce core compression and extend pin life, plus a specially formulated lock-in base to reduce sliding. They come with a two-year or 10,000-game warranty, assuring you of a solid long-term investment.

**TROPHY PINS**

Available in clear or colored styles, trophy pins have a far greater 'wow' factor than more traditional prizes, are an excellent promotional opportunity when customized with your center name, a sponsor's name or corporate logo, and make a fascinating conversation piece.

Be sure to give the award that keeps them talking about your place long after they roll the last ball.

**BIRTHDAY PINS**

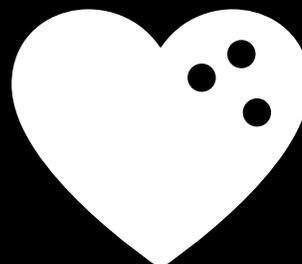

Birthday bowling is one of the fastest growing promotions in the industry. So why not present a great keepsake for the guest of honor, and a terrific new revenue stream for your business? Choose from an entry-level pin, multi-colored logo pin, or QubicaAMF Themed Birthday Pins tied to the BES X Bowler Entertainment System environments—Oceano, Prehistorica or Fairy Tales.
