“Some wait for their FATE to come to them. I say why wait? Grab your FATE with your own hands and make it happen!”

Jason Belmonte
“Belmo”

The technology we add to our products is distinctive and is always built with intention but having the opportunity to collaborate with the world #1 on product design is timeless. Our new collaboration with Belmo is a performance breakthrough for anyone looking to up their scores whether you use one hand, two hands, or no hands like AWBA standout, Curtis Wolfe from Colorado, who uses a ramp to roll strikes. Our quest was to build something that simply works for all styles of play and at all skill levels. After all the testing, iterations, and previous collaborations comes the product we believe to be suited for all games and it will be available this fall.

**We're dedicated to your game,
so relax and trust that your
FATE is in good hands.**

RST X-3

SKU #: RXE

\$ 888.88

Going back to our roots as the "original high-performance bowling ball specialists" we felt it was essential to create a versatile tour-quality performing ball for anyone and everyone, no matter their skill level or ability. And while it features our newest formulation of our MicroTrax™ hybrid cover technology, we can't forget the RST Core which produces consistent core torque and energy transfer down lane time and time again.

AVAILABLE WEIGHTS: 16lbs - 12lbs | IDEAL FOR MEDIUM-MEDIUM/HEAVY OIL

GEM

SKU #: RGM

Extraordinary. Magnificent. Phenomenal. Marvelous. Call it what you will, but we prefer to call this beauty exactly what it is, a GEM™. Not only will its breathtakingly good looks mesmerize your competition, but its overall performance will as well thanks to the fastest revving asymmetrical core we have ever produced known as the Defiant™ LRG Core. So, if you are looking for that heavy rolling and super continuous ball for those heavy oil conditions, look no more, this is the prized treasure you need in your hands.

AVAILABLE WEIGHTS: 16lbs - 12lbs | IDEAL FOR HEAVY OIL

\$ 888.88

RST X-2

SKU #: RXW

\$ 888.88

Hands down, this is the best combination of distance through the front of the lane and change of direction down lane of any Roto Grip HP4 ball. This particular combination of the RST Core paired with the eTrax™ PLUS pearl reactive cover, allows you keep the ball on a straighter target line longer, while still providing consistent core torque and energy transfer through the pin deck.

AVAILABLE WEIGHTS: 16lbs - 12lbs | IDEAL FOR MEDIUM-MEDIUM/HEAVY OIL

ROTO GRIP

IDOL COSMOS

SKU #: RDC

\$ **88.88**

Starting the combination of the forever famous Ikon™ Core and the XtremeTrax™ Pearl reactive cover featuring a 50% load of chemically charged nanoparticles, the Cosmos unlocks an alternate galaxy of predictability. While providing ease through the front of the lane, it will always want to dig in the midlane while still providing reaction to friction down lane.

AVAILABLE WEIGHTS: 16lbs - 12lbs | IDEAL FOR MEDIUM-MEDIUM/HEAVY OIL

IDOL HELIOS

SKU #: RDH

\$ **88.88**

Initially designed as the new and improved version of the original IDOL from yesteryear, it has quickly taken on the identity of the "900 Ball" thanks to Cody Schmitt and Steve Kosela. Everyone has found that with the chemically charged 50% nanoparticle load in the XtremeTrax solid cover that the ball creates more room for error than most balls, making it ideal for league play or tournament play.

AVAILABLE WEIGHTS: 16lbs - 12lbs | IDEAL FOR MEDIUM/HEAVY-HEAVY OIL

RUBICON UC3

SKU #: RBN

\$ **88.88**

Commonly known as the "game changer" thanks to its unique design and performance, the UC3 was constructed with the non-professional bowler in mind to battle both high friction oil patterns and high friction lane surfaces. It's the combination of the mild asymmetric Rondure Core which produces flare, and the Tour-ethane™ pearl cover that help blend out the lane and provide predictability and control time and time again.

AVAILABLE WEIGHTS: 16lbs - 12lbs | IDEAL FOR LIGHT- LIGHT/MEDIUM OIL

RUBICON UC2

SKU #: RRU

\$ **88.88**

More overall performance than the traditional symmetrical pearl reactive ball, but not as early or as much midlane as a super dynamic asymmetrical ball, this "ultimate concept" showcases the best of both worlds thanks to mildly asymmetric Rondure core. Providing both tumble through the front of the lane and change of direction down lane, this benchmark HP3 pearl ball has been a fan favorite around the globe since its conception.

HYPED

Experience the combination of consistency, versatility, and performance from the Hyped series of bowling balls. While each option in this series features a different cover material, you can be assured that each ball will perform above average for the price point. So, whether you need a ball that has more control than your HP3 ball, or whether you need a ball that gives you more overall reaction than your HP1 ball, this is the line for you. It's ok, you can thank us later.
