

COACHING TOOLS

Helping your bowlers improve their performance

BRINGING
SPORT
BOWLING
TO YOUR
CENTRE

BOWLTECH®

Make your centre a high-tech training facility

If no results are obtained, a (young) bowler may be tempted to stop. Bowltech offers your centre a wide range of coaching tools to keep your bowlers motivated and improve their performance. Our coaching tools ensure that bowlers remain dedicated to their sport (and to your centre).

Whether you're a Centre or Pro Shop looking to invest in your customers or a coach who wants offer more to your bowlers. In this brochure you can see which coaching tools we have to offer. If you would like to receive more information about our coaching tools, please contact our sales team.

PORTABLE COACHING TOOL

Jayhawk Board Box

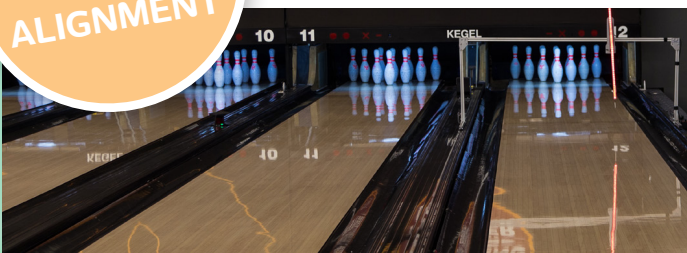

ANALYSE BOWLING SKILLS

Kegel Specto

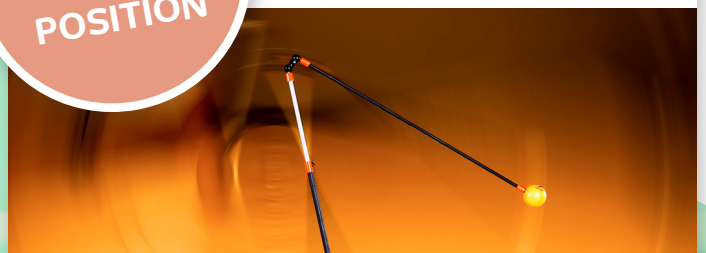

ACCURACY AND ALIGNMENT

Kegel Torch(X)

DEFINE SET-UP POSITION

Kegel Arrow

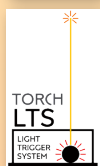

The Torch is a simple light targeting tool used to help with accuracy and alignment. Using LED lights, it reflects a path of light on the lane to help you select the correct launch angle and hit your target time after time. As you move left and right, the light will change its position showing you exactly where you should throw the ball.

One of the most difficult things for a bowler to do is visualize the ball path from the foul line to the breakpoint. From entry level bowlers to the most advanced, the Torch allows bowlers to see the initial path of the bowling ball like no other product before.

The Torch was designed to explain the aiming process in a way that can be easily understood by everyone. From children, to beginning bowlers, to special needs bowlers, the Torch is an easy and fun way to quickly improve this important fundamental skill.

Benefits

- Helps define a bowlers starting point.
- Helps bowlers to see the laydown point.
- Helps keep the swing path in-line with the target path.
- Helps keep the head stable throughout the approach.
- Shows how the target changes if a bowler drifts left or right.
- Solves misalignment. This solves a high percentage of all physical game issues. It results in better accuracy and less strain on the lower back.

TORCH-X features:

- All Torch Features
- Multiple light color options
- Torch Tilt Bar System
- Torch Light Trigger System
- Torch 2-Piece Adjustable Height System

SPECTO BOWLING

Specto is the ultimate training tool that transforms your centre into a high-tech training facility. Where before (sports) bowlers invested in intensive training hours in bowling centres, they now mainly invest in materials and accessories. Specto brings the importance of training (and therefore also revenue) back to your centre.

INSTALLED
AND
INSTRUCTED
WITHIN
1 DAY!

A High Power Sensor registers and transmits data to a user-friendly app where all information is easy to analyze. With the smartphone app, bowlers can view results, execute training schedules or participate in competitions with friends and other bowlers all over the world! Download the very user-friendly Specto app for IOS and Android on computers, tablets, smartphones or smartwatches.

In the Specto app you can find everything you need for a hard core practice. When selected PERFORMANCE you will enter the area for bowlers and coaches to find

Also in the Specto app

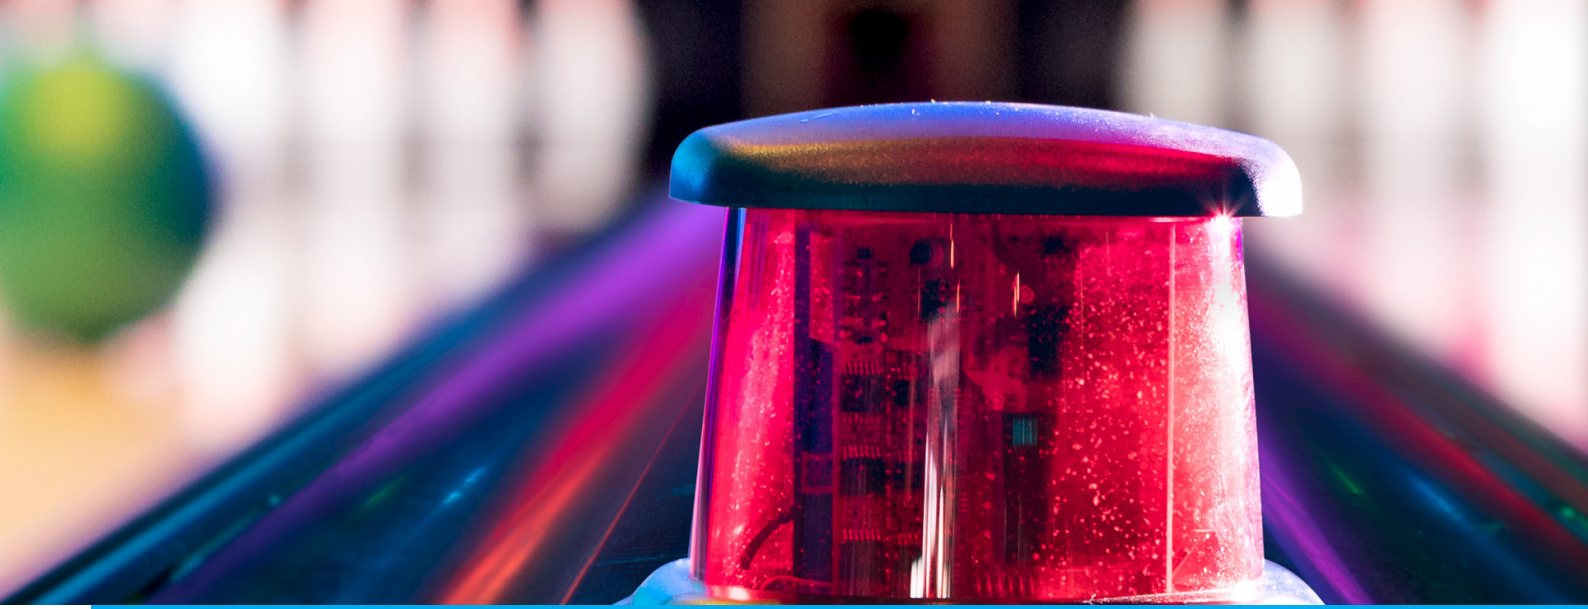

Worlds

This is a game-like experience which helps bowlers develop their skills as they are guided through different levels.

Challenges

This is the arena for you to prove your skills and talent. How good are you?

detailed stats, measure performance in a variety of areas, and see your numbers in the same way they are shown in PBA matches.

- See your ball reaction.
- Learn how accurate you are.
- Test your balls and prepare your arsenal for your next competition.
- Use practice drills designed by coaches to improve your game.
- Use deep practice to improve your skills quickly.

And more!

**1 SENSOR
CAN ANALYSE
UP TO
6 LANES!**

Specto for Bowling centres

- Tap into new revenue potential.
- Help your bowlers improve.
- Increase exposure as a preferred centre.
- Easily add a specto system to your centre.
- Easy to use for bowlers.
- Entertainment options with specto.
- Bowlers can practice on their own.

Specto for Coaches

- Quantify your student's skill level objectively.
- Develop talent more effectively.
- Practical and easy to use.
- Windows based Specto App for in depth analysis.
- Ability to overlay lane pattern on shot plan.
- Up to 4 times the amount of data points compared to Bowlers App.

Specto for Bowlers

- Improve your performance.
- Get a blueprint of your style of play.
- Practice with a purpose.
- Practice on your own.
- Connect and compete on more than just score.
- Manage your arsenal.
- Easy to use.

The Arrow is a 3D Reference Tool that gives players a physical reference point to see when working on a variety of drills. Visualize your set-up position, pushaway, finish position and more! Compare your technique to something you can see and feel to train yourself quickly. This dynamic tool can take the place of many coaching aids. See below for several of the most popular uses.

Set-up Position

Use the Arrow to help players get in the right position at the start of their approach.

Timing

Set the ball to mark the location of the 2nd step during a 5-step approach so players recognize when to push the ball out.

Use it to:

- Define your set-up position.
- Mark your height during approach.
- Identify positions on the lane.
- Define height of release.
- Mark your body angles.
- Use it as a tripod for a camera.
- Easy to carry, easy to set-up.
- Dozens of shape combinations.
- One simple tool instead of many.
- Great tool for creative bowlers and coaches; find your own use!

Pushaway

Help players recognize the direction and shape of their pushaway.

Finish Position

OPTION 1:

Set the bar up with the pivot point over the lane and create a bar to throw the ball under.

OPTION 2:

Set the pivot point at their shoulder with the top bar pointing down to show the line to keep the ball inside at the finish.

JAYHAWK

BOARD BOX

This portable device tells you which board you hit when bowling. This is a great tool for coaches and pro shops.

With its light weight, compact size and fast calibration it is ideal for coaches that travel from one centre to the other. They are up and running in no time.

Unique points:

- Displays the board a bowling ball travels across instantly.
- Light weight and portable.
- Fast calibration.
- Great for coaches that travel from centre-to-centre.
- Place at arrows and breakpoint for maximum target practice.
