Ramon's advice

Ramon Hilferink, Bowltech's Competitive Bowling Specialist will be there for you to assist and advise in all aspects of lane maintenance.

Throughout the years, Ramon has been a national champion 14 times in three different countries; the Netherlands, Germany and the US. He graduated Webber International University in 2017 with a Bachelor degree in Sport Management and afterwards received his Master degree in Sport Marketing & Sponsorship at the Johan Cruijff Institute in the Netherlands. During his time in college, Ramon received NAIA & NCBCA All American Award for three consecutive years. He is also an IBPSIA member, PBA member and a USBC Silver level coach. With his time on the lanes and coaching experience at the Kegel Training Center in Europe, Ramon has proven to be highly qualified.

Throughout this brochure Ramon will give his advice on some products. Would you like to receive some specific advice? Ramon is glad to help.

RAMON'S ADVICE

Watch for this button! Our Competitive Bowling Specialist Ramon Hilferink regularly provides you with good advice.

Bowltech Conditioner

This high-quality lane conditioner spray creates a protective layer on your lanes allowing bowling balls to slide better and roll less. This reduces friction and increases lane life. Simple and direct spray application.

LANE MAINTENANCE

Conditioners

Art # 156-8135
Art # 156-8135C

KEGEL - Fire

This conditioner creates more hook and is suitable for low friction lane surfaces. Also available in 0.4 Gallon cartridges, which are packaged 12 cartridges per box.

Specifications

Viscosity	45.1 cps
Surface tension	23.6 dynes/cm
Application technology	Sanction
Packaging	4 x 1.25 Gallon

KEGEL - Current

This conditioner is the perfect option between Fire and Ice when it comes to slickness and is also specially designed to be compatible with these conditioners. Current maintains a better structure which in turn provides more predictable ball motion and consistent scoring. Also available in 0.4 Gallon cartridges, which are packaged 12 cartridges per box.

Specifications

Viscosity	52.0 cps
Surface tension	23.3 dynes/cm
Application technology	Sanction
Packaging	4 x 1.25 Gallon

Art # 156-8175
Art # 156-8175C

RAMON'S ADVICE

If you have less than 10 year old AMF, ACTIVE, FUNK or less than 15 year old Brunswick or System 300 synthetic lanes then Kegel Current is probably the conditioner your league bowlers will be most successful on.

RAMON'S ADVICE

If you have more than 15 year old AMF, ACTIVE, FUNK or more than 20 year old Brunswick or System 300 synthetic lanes then Kegel Ice is probably the conditioner your league bowlers will be most successful on.

KEGEL - Ice

Ice delivers more 'hold-area' and is suitable for high friction lane surfaces. Also available in 0.4 Gallon cartridges, which are packaged 12 cartridges per box. (Also great for Wood Lanes)

Specifications

Viscosity	40.9 cps
Surface tension	23.6 dynes/cm
Application technology	Sanction
Packaging	4 x 1.25 Gallon

Art # 156-8130
Art # 156-8130C

KEGEL - Curve

Curve conditioner is specially designed to create more hook, it also provides more predictable ball motion which in turn leads to consistent scoring. Also available in 0.4 Gallon cartridges, which are packaged 12 cartridges per box.

Specifications	
Viscosity	41.0 cps
Surface tension	22.0 dynes/cm
Application technology	Sanction
Packaging	4 x 1.25 Gallon

RAMON'S ADVICE

If you have less than 5 year old AMF, ACTIVE, FUNK or less than 10 year old Brunswick or System 300 synthetic lanes then Kegel Curve is probably the conditioner your league bowlers will be most successful on.

Art # 156-8145
Art # 156-8145C

KEGEL - Terrain

TERRAIN features shear-thinning, non-Newtonian chemical technology which responds differently to each individual bowler. The result is a single lane conditioner that is more forgiving for your center's wide range of bowlers.

What you will notice is that while TERRAIN gives high rev players more help getting the ball to push down the lane, the lower rev players will simultaneously see more traction providing control and power. From high-end players to seniors, TERRAIN broadens the spectrum of bowler styles that will find good ball reaction.

Also available in 0.4 Gallon cartridges, which are packaged 12 cartridges per box.

Specifications	
Viscosity	81.0 cps
Surface tension	33.3 dynes/cm
Application technology	Sanction
Packaging	4 x 1.25 Gallon

Art # 156-8185
Art # 156-8185C

KEGEL - Crossfire

This conditioner is specially designed and particularly suitable for all lane maintenance machines which use Wick application technology. Suitable for all surfaces, low wicking time.

Specifications

Viscosity	24.1 cps
Surface tension	23.6 dynes/cm
Application technology	Wick
Packaging	4 x 1.25 Gallon

Art # 156-8105

KEGEL - Infinity

Specially designed for lane maintenance machines which use sanction technology. This durable conditioner delivers high scoring and is favorite among bowling centers with mainly league players.

Specifications

Viscosity	36.5 cps
Surface tension	23.1 dynes/cm
Application technology	Sanction
Packaging	4 x 1.25 Gallon

Art # 156-8115

Art # 156-8095

KEGEL - Prodigy

THE 'all-time favourite' lane conditioner, from it's release date in 2004, until today the Prodigy is a true bestseller! This conditioner delivers consistent scoring and a predictable ball motion while the back-end reaction just won't go away. Reduced carry down, easy to clean and suitable for all surfaces.

Specifications

Viscosity	41.0 cps
Surface tension	22.0 dynes/cm
Application technology	Sanction/Wick
Packaging	4 x 1.25 Gallon

KEGEL - Navigate

THE 'all purpose' conditioner. Suitable for all bowling centers with recreational and league bowlers. A durable conditioner which is Pinsetter friendly: low ball calls.

Specifications

Viscosity	31.3 cps
Surface tension	23.5 dynes/cm
Application technology	Sanction/Wick
Packaging	4 x 1.25 Gallon

Art # 156-8125

LANE DYNAMX - LDX Elite

LDX Elite HD is a high quality lane cleaner which has been the favourite of Family & Entertainment Centers for many years. Suitable for all lane maintenance machines. It can also be used as an all-purpose cleaner in other areas of your bowling center.

Specifications

Packaging	2 x 2.5 Gallon
-----------	----------------

**Highly recommended for
Family & Entertainment Centers!**

KEGEL - Defense -C

Kegel's original cleaner which still remains the best seller even today! Defense-C gets the job done time after time. This high powered, non-abrasive cleaner is suitable for all types of lanes, synthetic and wood. Compatible with all lane maintenance machines, Wick and Sanction.

Specifications

pH value	pH - 13.2
Packaging	2 x 2.5 Gallon

Art # 156-8405

RAMON'S ADVICE

The best lane cleaner in the bowling industry for years.

KEGEL - Defense CX4 -S

Kegel's Defense CX4-S cleaner is specially designed for lower friction surfaces like most synthetic lanes. Provides spotless lanes and delivers stronger ball motion! CX4 cleaners are 4 times stronger than Defense-C cleaner. Compatible with all lane maintenance machines.

Specifications

pH value	pH - 12.9
Packaging	1 Gallon

Art # 156-8435

Art # 156-8425

KEGEL - Defense CX4

Defense CX4 cleaner is specially designed for higher Friction surfaces like wood, worn synthetics or some of the latest higher friction synthetics. CX4 cleaners are 4 times stronger than Defense-C cleaner. Compatible with all lane maintenance machines.

Specifications

pH value	pH - 11.3
Packaging	1 Gallon

KEGEL - K3 Cloth

The average center changes cloth 6 times a year, so with K3 you could change cloth up to 2 fewer times. On average, two feet of cloth are wasted during the winding process; so not only will you save time changing out cloth, but you will also decrease the amount of cloth you waste.

K3 Select comes in a 30 yard roll compared to the traditional 20 yard roll of K2. Get up to 50% more lanes before changing rolls with K3 Select Cloth.

RAMON'S ADVICE

If you are used to the quality of the K2 Select EZ-core, you have the possibility to maintain this quality and to clean up to 50% more lanes before the roll needs to be replaced.

K3 Cloth is Compatible with: Kustodian Plus and later model lane machines. (Not compatible with Crossfire Lane Machines)

Specifications

Cleaning capacity	570 lanes / roll
Width	109 cm
Length	30 yards/27.4m
Packaging	per 3 rolls

START SAVING
80 LANES OF CLOTH
A YEAR

KEGEL - K2 Select Duster cloth

This K2 EZ Core Duster Cloth fits all Kegel lane maintenance machines, both Sanction and Wick machines. With one roll you can clean approx. 380 lanes. The rolls are wrapped around a reusable PVC core. Your empty fresh core becomes your new waste pick up core. No more cutting or unwinding dirty waste cloth. Simply click, turn and ready!

Specifications

Cleaning capacity	380 lanes / roll
Width	109 cm
Length	20 yards/18.3m
Packaging	per 4 rolls

Art # 153-0047EZ

KEGEL - K2 Duster cloth

The K2 Duster Cloth, like EZ Core, fits all Kegel lane maintenance machines, both Sanction and Wick machines. With one roll you can clean approx. 380 lanes. The rolls are wrapped around a cardboard core that you easily place in the machine.

Specifications

Cleaning capacity	380 lanes / roll
Width	109 cm
Length	20 yards/18.3m
Packaging	per 4 rolls

Art # 153-0047P

LANE DYNAMX - LDX Duster Cloth 9460

This LDX lane duster cloth is compatible with most lane maintenance machines: Sanction II, Standard AC/Elite, Crossfire, Firebird, Kustodian, Kustodian Ion and Kustodian Walker and many models of hand duster units.

Specifications

Cleaning capacity	380 lanes / roll
Width	109 cm
Length	20 yards/18.3m
Packaging	per 3 rolls

Art # 153-0047L

LANE MAINTENANCE

Approach

KEGEL - Balance Approach Conditioner

This all-in-one solution maximizes the performance of your synthetic approaches. It cleans and conditions your approaches in one simple application. Use with a rotary buffer. Use for Synthetic Approaches only.

Specifications

Packaging 4 x 473 ml
(16oz) per case

Art # 156-8320

KEGEL - Approach mop Microfiber

Suitable for cleaning synthetic approaches. These mops are colour coded in order to distinguish sensitive approach-cleaning from heavy duty-cleaning elsewhere in your center.

Approach mop with handle assembly. Approach mop refill is also sold separately. The mop is machine washable.

Specifications

Mop width 36 inch (91 cm)

Complete: Art # 159-4421C
Mop refill (white): Art # 159-4421
Mop refill (green): Art # 159-4402

LDX DynaSlide

LDX DynaSlide is a conditioner which is specially designed for synthetic approaches. It not only reduces stickiness, but where applied restores 'slide' to the approach.

The LDX DynaSlide kit includes an empty vaporizer for easy application.

Specifications

Packaging 2 Gallon

RAMON'S ADVICE

My advice for creating the approach slide your sports bowlers demand.

Art # 156-8199

KEGEL - Buffing pad (green-white)

Buffing pad, especially for cleaning and conditioning your approach.

The buffing pad is machine washable.

Specifications

Diameter pad 21 inch (53 cm)

Art # 159-4510

KEGEL - Approach mop cotton

Suitable for cleaning wooden and synthetic approaches. This mop is made of unlooped, durable cotton. Approach mop with handle assembly. Approach mop refill is also sold separately.

The mop is machine washable.

Specifications

Mop width 36 inch (91 cm)

**DURABLE
COTTON**

Complete: Art # 159-4431C
Mop refill: Art # 159-4431

RAMON'S ADVICE

The easiest way to make your approaches dust-free. Moreover, this product works very well with LDX Dynaslide which also improves the approach slide

KEGEL - Gutter mop cotton

Suitable for cleaning all types of gutters. The mop is made of unlooped, durable cotton. Frame & Handle Only and Gutter Mop refill sold separately.

The mop is machine washable.

Specifications

Mop width 10 inch (25 cm)

**DURABLE
COTTON**

Complete: Art # 159-4400C
Frame/holder: Art # 159-4400F
Mop refill: Art # 159-4400

KEGEL - Utility mop

This microfiber mop is good for cleaning other floors in your center including the bowlers area. Mop with handle assembly. Mop refill is also sold separately.

The mop is machine washable.

Specifications

Mop width 36 inch (91 cm)

Complete: Art # 159-4412C
Mop refill: Art # 159-4412

LANE MAINTENANCE

Pin deck

KEGEL - Spot On Pin Deck Spray

The Spot On Pin Deck Spray is the only product that can be used both by hand and with a lane maintenance machine (Flex from 2016). The spray is environmentally friendly and prevents pins from sliding. For manual use there is a package of 1 Gallon.

Specifications

Packaging 4 x 0.41 Litre Aerosol
1 x 1 Gallon Container

Art # K-99-C

Art # 156-8310
Art # 156-8310

RAMON'S ADVICE

This great option created for FLEX machines can also be applied manually to prevent sliding pins.

KEGEL - No Pin Slide (NPS)

No Pin Slide has been specially developed to apply a texture to the pin deck. This will cause the pins to fall rather than slide off their spot. Also available in a smaller package of 1 Gallon.

Specifications

Packaging 4 x 1 Gallon

Pin Spot stickers

The sticker prevents sliding and off-spot pins. Apply to the pin deck.

Specifications

Packaging 9 stickers

Art # PPP-NSPS

Pin Shine cleaning machine

With this automatic Pin Cleaning Machine your pins will look new again in no time. Position the pin in the machine, close the lid and 15 seconds later your pin is clean! With the sanding disc on the side of the machine, you can re-sand the base of your pins after cleaning that prevent your pins from sliding.

Specifications

Power supply	230 Volt / 50 Hz
Measurements	89x43x25 cm
Weight	37 kg

Art # 17-0040E

KEGEL - Pin Shine

Pin Shine from Kegel helps to give your pins back that snow-white appearance of a brand new pin. Specially developed for use in a pin-cleaning machine. Prevents sticky pins and Pinspotter-errors.
